

Non-Credit: Geriatric Home Aide 2013-2014

The program is designed to provide practical skills and knowledge for entry-level students interested in a career as a geriatric home aide. Prepares students to provide care to ambulatory elderly patients in their own homes, under the supervision of a registered nurse. Course curriculum is focused on basic nursing needs, safety considerations, and nutrition needs for the geriatric patient population.

Program Learning Outcomes:

- The student will be prepared to administer safe care to ambulatory elderly patients in their own homes under the supervision to a registered nurse.
- The student will be prepared to document their care to ambulatory elderly patients in their own homes under the supervision to a registered nurse.
